SOS HOME OFFERS

SITUATION & KEY FINDING

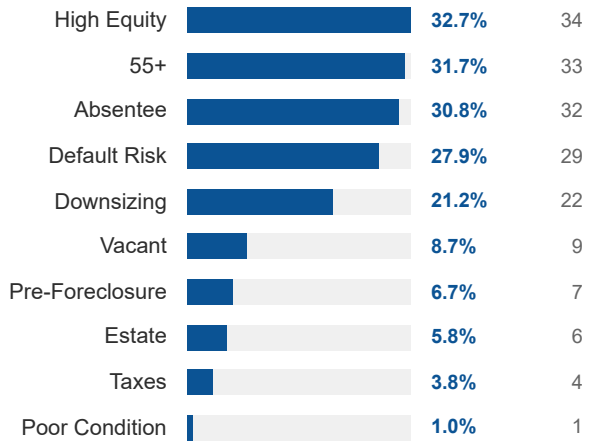
At SOS Home Offers' request, 8020REI reviewed 104 fulfillment properties confirmed sold between Oct – Dec 2025 — High Equity and 55+ were the most consistently active signals at the time of delivery

PROPERTIES REVIEWED	COUNTIES	TOP SIGNAL	MULTI-SIGNAL
104	**4**	**32.7%**	**53%**
Sold within Oct – Dec 2025	Aiken · Columbia · Edgefield · Richmond	High Equity of all sold properties	Held 2 or more signals at delivery

Key finding: 92.3% of matched properties carried at least one active distress signal at delivery — and 53% carried two or more. Signal stacking is the pattern that defines a transacting property in SOS Home Offers' market.

Active Signals at Time of Delivery

Value = 1 at Marketing First Recommendation period. 104 matched properties.



Signal Stack Distribution

Active signals per sold property at delivery.

ACTIVE SIGNALS	PROPERTIES	SHARE
0 signals	8	7.7%
1 signal	41	39.4%
2 signals	34	32.7%
3 signals	16	15.4%
4 signals	5	4.8%

Important framing

High Equity and 55+ appear most frequently because they are the largest distress segments in this market — not because they are uniquely predictive alone. Their value is as amplifiers: a property stacking multiple signals is a meaningfully higher-urgency target than any single flag in isolation.

SUPPORTING EVIDENCE

Columbia and Richmond show the same signal pattern — High Equity + 55+ — confirming the finding holds across SOS Home Offers' active markets

County Breakdown — Matched Sold Properties

COUNTY	SOLD	SHARE	TOP SIGNALS
Aiken	10	9.6%	Absentee 40% · High Equity 20% · Downsizing 20%
Columbia	48	46.2%	High Equity 40% · Default Risk 38% · 55+ 31%
Edgefield	0	0.0%	No matched transactions this period
Richmond	46	44.2%	55+ 39% · Absentee 35% · High Equity 28%

Note — Edgefield: No matched sold properties were recorded in this county during Oct – Dec 2025. It is active in SOS Home Offers' BuyBox and included in the distress universe, but produced no transactions to analyse during this window. The repeat analysis scheduled for September 2026 will clarify whether this reflects a quiet period or a structural gap in that market.

Monthly Sale Volume

MONTH	PROPERTIES SOLD
October 2025	45

December 2025	44

Buyer Type — Who Purchased These Properties

BUYER TYPE	PROPERTIES	SHARE
Individual	85	81.7%
Company	8	7.7%
Trust	6	5.8%
Estate	5	4.8%

13% of matched properties sold to investor entities (company or trust). These buyers operate with pre-approved financing and dedicated acquisition teams — advantages that only close the window faster once a property is identified.

RECOMMENDATIONS

Acting on these findings now gives SOS Home Offers a direct path to more closed deals — prioritising the right signals, responding faster, and reaching motivated sellers before competing buyers engage.

1. Prioritise Signal-Stacked Properties First

Sort and work the fulfillment list by signal count, then by these validated combinations:

- **Tier 1 — Columbia focus:** High Equity + Default Risk + 55+. Any property carrying all of these is the highest-urgency target. Outreach within 48 hours of delivery.
- **Tier 2 — Richmond focus:** 55+ + Absentee. Work within the delivery week.
- **Tier 3 — secondary signals:** High Equity + Default Risk. Lower urgency, lower competition. Include as a weekly sweep.

2. Activate Rapid Response

The monthly delivery cycle means SOS Home Offers first sees properties 30+ days after they enter the market. Rapid Response adds a parallel, same-day channel when a property matching the BuyBox first appears in the platform — without replacing the current outreach workflow. It is the direct answer to the speed-to-contact gap investor buyers exploit.

3. Build Two Niche List Tracks (if VA capacity allows)

- **Track A — High Equity + 55+:** Large pool, validated signal combination. Consistent outreach cadence via VA.
- **Track B — Pre-Foreclosure (7 properties in this analysis):** Small universe, high seller urgency, low investor competition. Each property is more actionable precisely because the pool is small.

Distress Universe — Platform Overview

Total properties flagged per signal across SOS Home Offers' active counties (8020REI platform, March 2026).
