# High Equity, Default Risk, and Absentee defined which FreedomREI properties sold — stacking these signals in Duval gives the clearest path to faster deals before investor competition acts

Fulfillment Distress Analysis · July – December 2025 · Prepared March 2026

| Client | Analysis Window | Counties | Matched Properties | Report Type |
|---|---|---|---|---|
| FreedomREI | Jul – Dec 2025 (6 months) | Duval · Clay · Nassau | 181 sold | Fulfillment Distress Analysis |

CONFIDENTIAL — 8020REI INTERNAL

SIGNAL ANALYSIS

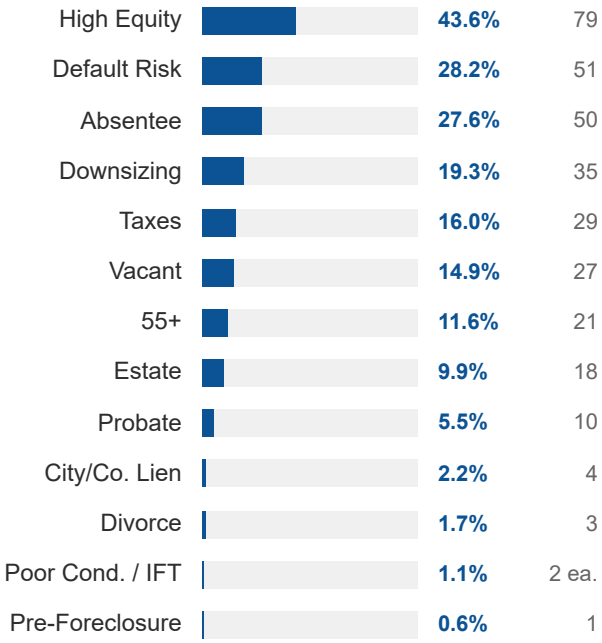
# 43% of sold properties carried High Equity at delivery — and nearly all held multiple signals. The combination of High Equity with Absentee or Default Risk identifies the properties that transact fastest.

| PROPERTIES DELIVERED | MATCHED SOLD | AVG. ACTIVE SIGNALS | MULTI-SIGNAL RATE |
|---|---|---|---|
| **225,145** | **181** | **1.8** | **59.7%** |
| Jul – Dec 2025 across 3 counties | Delivered then sold to another buyer | Per matched property at delivery | Held 2 or more signals at delivery |

**Key finding:** Only 7 of 181 matched properties (3.9%) had zero active signals at delivery. The remaining 96.1% carried at least one distress flag — and nearly 60% carried two or more. Signal stacking is the pattern that defines a transacting property in FreedomREI's market.

## Active Signals at Time of Delivery

Value = 1 at Marketing First Recommendation period. 181 matched properties.



## Signal Stack Distribution

Active signals per sold property at delivery.

| ACTIVE SIGNALS | PROPERTIES | SHARE |
|---|---|---|
| 0 signals | 7 | 3.9% |
| 1 signal | 66 | 36.5% |
| 2 signals | 69 | 38.1% |
| 3 signals | 30 | 16.6% |
| 4 signals | 8 | 4.4% |
| 5 signals | 1 | 0.6% |

### Important framing

High Equity and Absentee appear most frequently because they are the largest distress segments in this market — not because they are uniquely predictive alone. Their value is as amplifiers: a property that is High Equity *and* Absentee *and* carries Default Risk represents a meaningfully higher-urgency target than any single flag alone.

MARKET CONTEXT

# Duval drives 77% of matched sales but shows a different distress mix than Clay — and 27% of all matched properties sold to investor entities, confirming that speed-to-contact is a competitive necessity.

## County Breakdown — Matched Sold Properties

| COUNTY | SOLD | SHARE | TOP SIGNALS |
|---|---|---|---|
| **Duval** | 140 | 77.3% | High Equity 39% · Absentee 35% · Default Risk 28% · Taxes 20% |
| **Clay** | 31 | 17.1% | High Equity 55% · Downsizing 39% · Default Risk 29% |
| **Nassau** | 10 | 5.5% | High Equity 50% · 55+ 40% · Default Risk 30% · Estate 30% |

**County interpretation:** Duval's profile is driven by Absentee and Taxes alongside High Equity — suggesting urban investor activity. Clay's profile is characterized by Downsizing, consistent with an aging suburban owner base. Nassau's 55+ and Estate concentration points toward inherited or retirement-transition properties. Each county warrants distinct outreach messaging.

## Buyer Type — Who Purchased These Properties

| BUYER TYPE | PROPERTIES | SHARE |
|---|---|---|
| Individual | 132 | 72.9% |
| Company (entity) | 31 | 17.1% |
| Trust | 18 | 9.9% |

**27% of matched properties sold to investor entities** (company or trust). These buyers operate with pre-approved financing and dedicated acquisition teams — advantages that only close the window faster once a property is identified.

## Monthly Sale Volume

| MONTH | PROPERTIES SOLD |
|---|---|
| July 2025 | 32 |
| August 2025 | 38 |
| September 2025 | 14 |
| October 2025 | 50 |
| November 2025 | 27 |
| December 2025 | 20 |

October was the highest-volume month (50 sales), coinciding with peak delivery volume in the November batch.

RECOMMENDATIONS

# Three actions — signal-stacked prioritization, Rapid Response, and two Niche List tracks — directly address the speed and targeting gaps this analysis identifies.

## 1. Prioritize Signal-Stacked Properties First

Sort and work the fulfillment list by signal count, then by these validated combinations:

- **Tier 1 — Duval focus:** High Equity + Absentee + Default Risk. Any property carrying all three is the highest-urgency target. Outreach within 48 hours of delivery.
- **Tier 2 — Duval & Clay:** High Equity + Taxes or High Equity + Vacant. Work within the delivery week.
- **Tier 3 — Nassau & Clay:** High Equity + 55+ or High Equity + Estate. Lower urgency, lower competition. Downsizing is the Clay-specific signal to add.

## 2. Activate Rapid Response

The monthly delivery cycle means FreedomREI first sees properties 30+ days after they enter the market. Rapid Response adds a parallel, same-day channel when a property matching the BuyBox first appears in the platform — without replacing the current outreach workflow. It is the direct answer to the speed-to-contact gap investor buyers exploit.

## 3. Build Two Niche List Tracks (if VA capacity allows)

- **Track A — High Equity + Absentee:** Large pool, validated signal. Consistent outreach cadence via VA.
- **Track B — Divorce + Pre-Foreclosure:** 3 and 1 respectively in this analysis — small universe, high seller urgency, low investor competition. Each one is more actionable precisely because so few exist.

## Distress Universe — Platform Overview

Total properties flagged per signal across FreedomREI's active counties (8020REI platform, March 2026). High-volume signals dominate the sold list partly because they represent the largest pools in the market.

| DISTRESS SIGNAL | PLATFORM TOTAL | SOLD (181) |
|---|---|---|
| Vacant | ~9,100 | 27 (14.9%) |
| Pre-Foreclosure | ~4,500 | 1 (0.6%) |
| Inter Family Transfer | ~3,000 | 1 (0.6%) |
| Probate | ~2,100 | 10 (5.5%) |
| City/County Lien | ~1,900 | 4 (2.2%) |
| Poor Condition | ~1,700 | 2 (1.1%) |
| Divorce | ~1,200 | 3 (1.7%) |
| Judgement | ~1,100 | 0 (0.0%) |
| HOA Lien | ~587 | 0 (0.0%) |
| Low Credit | ~469 | 0 (0.0%) |

High Equity, Absentee, Default Risk, Downsizing, 55+, Estate, and Taxes universe counts are substantially larger — see platform overview for exact figures.

## Next Steps

| ACTION | OWNER | BY |
|---|---|---|
| Present findings and signal-stack tiers to FreedomREI team | CSM | Apr 2026 |
| Configure BuyBox weighting for Tier 1 stack (HE + Absentee + Default Risk) | Client + CSM | Apr 2026 |
| Activate Rapid Response for Duval County | Client | Apr 2026 |
| Evaluate VA capacity for Niche List Track | Client | Apr |

ANNEX
